Atlas of Foot and Ankle Surgery, 1e Michael J. Shereff MD

This excellent text provides step-by-step descriptions of some of the more commonly used surgical procedures utilized for the correction of disorders of the foot and ankle. The text is organized into separate sections on surgical procedures for treatment disorders of the midfoot, hindfoot, and ankle, and each surgical procedure is beautifully illustrated in order to provide insight into technical details. A helpful guide to both residents in training and practicing orthopedists in clinical decision making as well as preparation prior to surgery.
