The story of Christian thought is essential to understanding Christian faith today and the last two millennia of world history. This fresh and lively introduction explores the central ideas, persons, events, and movements that gave rise to Christian thought, from early beginnings to its present forms. By highlighting the important but often neglected role of women and the influence of non-Christian ideas and movements, this book provides a broader context for understanding the history of Christian ideas and their role in shaping our world. *Christian Thought:*

- provides an overview of the context of Christianity's origin, including discussion of the influence of Hebrews, Greeks, and Romans
- explores the major events and figures of the history of Christian thought, while drawing attention to significant voices which have often been suppressed
- analyses the impact on Christian thought of widely discussed events such as The Great Schism, the Scientific Revolution, and modernism
- surveys contemporary trends such as fundamentalism, feminism, and postmodernism.

This fully revised and updated second edition features a new chapter on liberal theology and reflects recent scholarship in the field.
