Paul R. Williams: A Collection of House Plans (California Architecture and Architects) (California Architecture & Architects) Paul R. Williams

Contains both books; The Small Home of Tomorrow and New Homes for Today as a set.

Paul R. Williams worked in a variety of styles, and we can see his flair in the large houses and commercial projects he designed. But Williams had another side: he was determined to bring his style to houses for the middle class. In the 1940s, he issued two books of inventive drawings and plans for just such a house. THE SMALL HOME OF TOMORROW and NEW HOMES FOR TODAY are a window into a sunnier day in house design and an opportunity to see the workings of an architectural genius, one whose ideas are still relevant to the house builder of today.
