User Acceptance Testing: A step-by-step guide Brian Hambling, Pauline van Goethem

Every information system brought into service in every type of organisation requires user acceptance testing. It is by far the most common activity carried out by non-IT specialists. This book is designed to be a hands-on manual for non-testing specialists to plan and carry out an effective acceptance test of an information system. It provides a structured and step-by-step approach to effective acceptance testing and identifies ways of making the process as simple and cost-effective as possible.
