Feeding Beef Cattle in Alabama (Classic Reprint) Dan T Gray

Excerpt from Feeding Beef Cattle in Alabama

Among the facts of importance demonstrated in this bulletin are (1) the outstanding value of a ration of cottonseed meal and cotton seed hulls as a standard beef-making ration in Alabama when fed in winter; (2) the small necessity for shelter for beef cattle in Alabama; and (3) the great importance of the use of pasture for cattle when fed a summer ration of cottonseed cake. The authors have Opened Up an additional field for the use of pasture by their investigations of the relative value of Short and long period feeding on summer pasture.

In this connection I take the Opportunity again to point out the importance of these investigations not only to Alabama and other parts of the South but to the entire country as well. This work is laying the foundation for rational and profitable beef production under southern conditions and will grow in in uence with the advance of the boll weevil and the eradication of the Texas-fever cattle tick. In this respect it will be worth far more to the South than the entire amount of the appropriation which makes it possible.

About the Publisher

Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works."
