The Second Edition of this popular study guide contains all of the entries and examples - as well as the Master Word List - which made it so successful in its first edition. In addition, it includes complete references to the Uniform Probate Code, including explanations of the Code's most recent changes and a comprehensive UPC table for cross-references. Now, teachers who either emphasize or only touch on the UPC can be assured that if there is a UPC section relevant to any term or concept in the book, it will be referred to by section number and, where appropriate, summarized in the pertinent entry.
