Truce Tent and Fighting Front: United States Army in the Korean War Walter G. Hermes

Truce Tent and Fighting Front covers the last two years in the Korean War and treats the seemingly interminable armistice negotiations and the violent but sporadic fighting at the front. The scene therefore frequently shifts from the dialectic, propaganda, and frustrations at the conference table to the battles on key hills and at key outposts. The author presents a solid and meaningful reconstruction of the truce negotiations; he develops the issues debated and captures the color of the arguments and the arguers. The planning and events that guided or influenced the proceedings on the United Nations side are thoroughly explained. The volume abounds in object lessons and case studies that illustrate problems American officers may encounter in negotiating with Communists. Problems encountered by the U.N. high command in handling recalcitrant Communist prisoners of war within the spirit and letter of the Geneva Convention are explained with clarity and sympathy. Truce Tent and Fighting Front is offered to all thoughtful citizens ---military and civilian--- as a contribution to the literature of limited war. Hal C. Pattison Brigadier General, USA Chief of Military History
