Biometric Authentication: First International Conference, ICBA 2004, Hong Kong, China, July 15-17, 2004, Proceedings (Lecture Notes in Computer Science)

The past decade has seen a rapid growth in the demand for biometric-based authentication solutions for a number of applications. With significant advances in biometric technology and an increase in the number of applications incorporating biometrics, it is essential that we bring together researchers from academia and industry as well as practitioners to share ideas, problems and solutions for the development and successful deployment of state-of-the-art biometric systems. The International Conference on Biometric Authentication (ICBA 2004) was the first major gathering in the Asia-Pacific region devoted to facilitating this interaction. We are pleased that this conference attracted a large number of high-quality research papers that will benefit the international biometrics research community. After a careful review of 157 submissions, 101 papers were accepted either as oral (35) or poster (66) presentations. In addition to these technical presentations, this conference also presented the results and summaries of three biometric competitions: Fingerprint Verification Competition (FVC 2004), Face Authentication Competition (FAC 2004), and Signature Verification Competition (SVC 2004). This conference provided a forum for the practitioners to discuss their practical experiences in applying the state-of-the-art biometric technologies which will further stimulate research in biometrics. We are grateful to Jim L. Wayman, Edwin Rood, Raymond Wong, Jonathon Philips, and Francis Ho for accepting our invitation to give keynote talks at ICBA 2004. In addition, we would like to express our gratitude to all the contributors, reviewers, program committee and organizing committee members who made this a very successful conference. We also wish to acknowledge the Croucher Foundation, the International Association of Pattern Recognition, IEEE Hong Kong Section, the Hong Kong Polytechnic University, the National Natural Science Foundation in China, and Springer-Verlag for sponsoring this conference.

From reader reviews:

Lois Silvey:

Now a day those who Living in the era just where everything reachable by connect to the internet and the resources included can be true or not involve people to be aware of each facts they get. How many people to be smart in acquiring any information nowadays? Of course the solution is reading a book. Reading a book can help folks out of this uncertainty Information especially this Biometric Authentication: First International Conference, ICBA 2004, Hong Kong, China, July 15-17, 2004, Proceedings (Lecture Notes in Computer Science) book since this book offers you rich facts and knowledge. Of course the details in this book hundred per-cent guarantees there is no doubt in it as you know.

Fred Peterson:

The reserve untitled Biometric Authentication: First International Conference, ICBA 2004, Hong Kong, China, July 15-17, 2004, Proceedings (Lecture Notes in Computer Science) is the book that recommended to you you just read. You can see the quality of the reserve content that will be shown to anyone. The language that author use to explained their way of doing something is easily to understand. The copy writer was did a lot of research when write the book, to ensure the information that they share for your requirements is absolutely accurate. You also could possibly get the e-book of Biometric Authentication: First International Conference, ICBA 2004, Hong Kong, China, July 15-17, 2004, Proceedings (Lecture Notes in Computer Science) from the publisher to make you much more enjoy free time.

Jennifer Lewis:

Spent a free a chance to be fun activity to perform! A lot of people spent their free time with their family, or all their friends. Usually they undertaking activity like watching television, about to beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Will you something different to fill your free time/ holiday? Might be reading a book may be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of book that you should read. If you want to attempt look for book, may be the reserve untitled Biometric Authentication: First International Conference, ICBA 2004, Hong Kong, China, July 15-17, 2004, Proceedings (Lecture Notes in Computer Science) can be great book to read. May be it could be best activity to you.

Margaret James:

Beside this specific Biometric Authentication: First International Conference, ICBA 2004, Hong Kong, China, July 15-17, 2004, Proceedings (Lecture Notes in Computer Science) in your phone, it might give you a way to get nearer to the new knowledge or facts. The information and the knowledge you may got here is fresh from your oven so don't end up being worry if you feel like an previous people live in narrow small town. It is good thing to have Biometric Authentication: First International Conference, ICBA 2004, Hong Kong, China, July 15-17, 2004, Proceedings (Lecture Notes in Computer Science) because this book offers

for your requirements readable information. Do you often have book but you would not get what it's facts concerning. Oh come on, that would not happen if you have this in the hand. The Enjoyable option here cannot be questionable, similar to treasuring beautiful island. Use you still want to miss it? Find this book along with read it from right now!
