CNC Milling in the Workshop (Crowood Metalworking Guides) Marcus Bowman

A practical approach to using the CNC mill, aimed at everyone with a workshop, particularly modelmakers and horologists

CNC (computer numerical control) milling machines are now available to even the smallest of workshops, allowing designers to be more ambitious and machinists to be more confident of the production of parts, greatly increasing the potential of milling at home. This accessible guide takes a practical approach to software and techniques, and explains how you can make full use of your CNC mill to produce ambitious works of a high standard. It offers authoritative advice on programming and operating a CNC mill and a guide to the major CAD/CAM/CNC software such as Mach3, LuxCNC, and Vectric packages, without being restricted to any particular make of machine; as well as practical projects and examples of a wide range of finished work.
