Radar Systems, Peak Detection and Tracking

Michael Kolawole

Radar Systems, Peak Detection and Tracking Michael Kolawole

As well as being fully up-to-date, this book provides wider subject coverage than many other radar books. The inclusion of a chapter on Skywave Radar, and full consideration of HF / OTH issues makes this book especially relevant for communications engineers and the defence sector.

- * Explains key theory and mathematics from square one, using case studies where relevant
- * Designed so that mathematical sections can be skipped with no loss of continuity by those needing only a qualitative understanding
- * Theoretical content, presented alongside applications, and working examples, make the book suitable to students or others new to the subject as well as a professional reference
