Classical Descriptive Set Theory (Graduate Texts in Mathematics)

Alexander Kechris

Classical Descriptive Set Theory (Graduate Texts in Mathematics) Alexander Kechris

Descriptive set theory has been one of the main areas of research in set theory for almost a century. This text presents a largely balanced approach to the subject, which combines many elements of the different traditions. It includes a wide variety of examples, more than 400 exercises, and applications, in order to illustrate the general concepts and results of the theory.
