Biology: The Core Plus MasteringBiology with eText -- Access Card Package (2nd Edition) Eric J. Simon

NOTE: Before purchasing, check with your instructor to ensure you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a **Course ID**, which your instructor will provide.

Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

*For non-majors/mixed biology courses.
This package includes MasteringBiology™.*

Build a flexible non-majors biology course with science literacy at its core.

Eric Simon's *Biology: The Core* combines a succinct, beautifully illustrated 12-chapter textbook with engaging MasteringBiology assignment options and extensive instructor support materials. *The Core* delivers a uniquely flexible teaching and learning package that supports Active Learning or "Flipped Classroom" teaching techniques, and an emphasis on current issues that relate to basic biological concepts. The modular organization of the text makes it easy for instructors to teach concepts in their preferred order, and powerful online assignment options reinforce those concepts by clarifying the "big picture" and preparing your students with the biological literacy skills required to make informed decisions outside the classroom.

The **Second Edition** text and MasteringBiology assignment options further revolutionize teaching in and out of the classroom with a greater emphasis on the nature of science and dozens of new opportunities for students to practice basic science literacy skills. *The Core's* concise modules continue to focus students' attention on the most important concepts, combining dynamic figures and illustrations with supporting narrative as the primary source of instruction to create a more engaging and accessible learning experience for students. The new edition has been revised to strengthen the ways the text, MasteringBiology, and the instructor support materials work together in meeting the needs of both instructors and students—before, during, and after class.

Personalize learning with MasteringBiology.

MasteringBiology is the leading online homework, tutorial, and assessment system, designed to improve results by helping students quickly master concepts. Students benefit from opportunities to practice basic science literacy skills, using interactive resources that create engaging learning experiences. Effective activities in MasteringBiology help students further visualize and understand complex biological processes. Comprehensive instructor tools include MasteringBiology assignment options.
