**Big Bang, Big God: A Universe Designed for Life?** Rodney Holder

**Is the universe specifically designed to make life possible? A Christian contribution to the ongoing debate over the nature of the universe.**

How did the universe begin and how has it evolved? Does a scientific explanation mean that we can do without God? Why are the laws of nature so special ("fine-tuned") as to produce a universe with intelligent creatures like us in it in the first place? Can the existence of a multiverse, a vast or infinite collection of universes, explain the specialness of this universe? This book argues that only God provides an explanation for the universe to exist at all, and that design by God provides the best and most rational explanation to adopt for the fine-tuning.
