Where did we come from?

It's a simple question, but not so simple an answer to explain?especially to young children. Charles Darwin's theory of common descent no longer needs to be a scientific mystery to inquisitive young readers. Meet *Grandmother Fish*.

Told in an engaging call and response text where a child can wiggle like a fish or hoot like an ape and brought to life by vibrant artwork, *Grandmother Fish* takes children and adults through the history of life on our planet and explains how we are all connected.

The book also includes comprehensive backmatter, including:

- An elaborate illustration of the evolutionary tree of life
- Helpful science notes for parents
- How to explain natural selection to a child
