We all know that frogs love water, but did you know that some frogs have built-in 'goggles', and spend months underground during drought? Frogs are fascinating and often beautiful little animals, and seem to wear a permanent smile. Find out why they need that wide mouth, how they catch their food and avoid their enemies, and how they find a mate. Learn their habits and you too can become a frog-watcher. Her absorbing information and extraordinarily sharp and colourful close-up photography...make so much that is hidden all around us accessible and enthralling. Jackie Hammerton, Herald Sun
