Social Work Research and Evaluation: Examined Practice for Action Elizabeth G. DePoy, Stephen F. Gilson

Social Work Research and Evaluation applies systematically developed research knowledge to social work practice and emphasizes the “doing” of social work as a reciprocal avenue for generating research evidence and social work knowledge. Using the Examined Practice Model, authors Elizabeth G. DePoy and Stephen F. Gilson present research as the identification of a problem and then proceed to evaluate the efficacy of social work practice in its resolution. Diverse theories, actions, and sets of evidence from a range of professional and disciplinary perspectives are included to underscore the importance of integrating evaluation and practice in research.
