Why start a social skills program? The question is not why, but why not?

With inclusive education becoming the norm in schools nationwide, teachers often struggle to address students' non-academic needs—but teachers need ready-to-use lessons that won't interfere with their curriculum.

QUEST (Questioning, Understanding, and Exploring Social Skills and Pragmatic Language Together) is a social skills program created to help middle school students with ASD who struggle with pragmatic language and social skills.

Developed by a school social worker and speech language pathologist, the program uses an intensive, proactive approach to teaching social skills, combining written instruction with games, activities, and student interaction.

Six helpful units—School Survival Basics, Understanding and Managing Emotion, Communication Skills, Making Friends and Interacting with Peers, Personal Safety, Vocational Readiness—can be implemented either chronologically or on their own.

Evidence-based research supports the methods used and students have a great time learning-by-doing, through role-play and real-world experience. Parents are kept in the loop with email updates and evaluations. Everyone wins with this program!

Best of all, the book includes a CD of printable worksheets, letters, forms, and more!

QUEST covers: Greetings, Paying Attention, Daily Hygiene, Asking for Help, Understanding Feelings, Getting Angry/Calming Down, Managing Stress, Starting a Conversation, Making and Keeping Friends, Gossip, Bullying, and Teasing, Resisting Peer Pressure, Dating, Internet and E-mail Safety, and many more!
