Hegel's Science of Logic: A Critical Rethinking in Thirty Lectures Richard Dien Winfield

This text provides a truly comprehensive guide to one of the most important and challenging works of modern philosophy. The systematic complexity of Hegel's radical project in the *Science of Logic* prevents many from understanding and appreciating its value. By independently and critically working through Hegel's argument, this book offers an enlightening aid for study and anchors the *Science of Logic* at a central position in the philosophical canon.
