Lecture Notes on Mathematical Olympiad Courses: For Junior Section Vol 1 (Mathematical Olympiad Series) Jiagu Xu

Olympiad mathematics is not a collection of techniques of solving mathematical problems but a system for advancing mathematical education. This book is based on the lecture notes of the mathematical Olympiad training courses conducted by the author in Singapore. Its scope and depth not only covers and exceeds the usual syllabus, but introduces a variety concepts and methods in modern mathematics. In each lecture, the concepts, theories and methods are taken as the core. The examples are served to explain and enrich their intension and to indicate their applications. Besides, appropriate number of test questions is available for reader's practice and testing purpose. Their detailed solutions are also conveniently provided. The examples are not very complicated so that readers can easily understand. There are many real competition questions included which students can use to verify their abilities. These test questions are from many countries, e.g. China, Russia, USA, Singapore, etc. In particular, the reader can find many questions from China, if he is interested in understanding mathematical Olympiad in China. This book serves as a useful textbook of mathematical Olympiad courses, or as a reference book for related teachers and researchers.

From reader reviews:

Louis Venable:

Information is provisions for anyone to get better life, information currently can get by anyone in everywhere. The information can be a expertise or any news even a concern. What people must be consider any time those information which is in the former life are hard to be find than now's taking seriously which one works to believe or which one often the resource are convinced. If you have the unstable resource then you have it as your main information you will have huge disadvantage for you. All those possibilities will not happen throughout you if you take Lecture Notes on Mathematical Olympiad Courses: For Junior Section Vol 1 (Mathematical Olympiad Series) as the daily resource information.

Wesley Jerkins:

The book untitled Lecture Notes on Mathematical Olympiad Courses: For Junior Section Vol 1 (Mathematical Olympiad Series) contain a lot of information on the idea. The writer explains the woman idea with easy way. The language is very easy to understand all the people, so do certainly not worry, you can easy to read the item. The book was compiled by famous author. The author provides you in the new period of time of literary works. It is possible to read this book because you can read on your smart phone, or model, so you can read the book within anywhere and anytime. If you want to buy the e-book, you can wide open their official web-site as well as order it. Have a nice read.

Catherine Acevedo:

Many people spending their moment by playing outside with friends, fun activity along with family or just watching TV the whole day. You can have new activity to enjoy your whole day by looking at a book. Ugh, do you consider reading a book can really hard because you have to take the book everywhere? It all right you can have the e-book, taking everywhere you want in your Mobile phone. Like Lecture Notes on Mathematical Olympiad Courses: For Junior Section Vol 1 (Mathematical Olympiad Series) which is obtaining the e-book version. So , why not try out this book? Let's find.

Robert Polk:

Many people said that they feel fed up when they reading a reserve. They are directly felt it when they get a half portions of the book. You can choose the book Lecture Notes on Mathematical Olympiad Courses: For Junior Section Vol 1 (Mathematical Olympiad Series) to make your current reading is interesting. Your skill of reading proficiency is developing when you similar to reading. Try to choose straightforward book to make you enjoy to study it and mingle the opinion about book and reading especially. It is to be initially opinion for you to like to open a book and study it. Beside that the e-book Lecture Notes on Mathematical Olympiad Courses: For Junior Section Vol 1 (Mathematical Olympiad Series) can to be your new friend when you're sense alone and confuse with the information must you're doing of the time.
