SuperFuel: Thorium, the Green Energy Source for the Future (MacSci) Richard Martin

A riveting look at how an alternative source of energy is revolutionising nuclear power, promising a safe and clean future for millions, and why thorium was sidelined at the height of the Cold War

In this groundbreaking account of an energy revolution in the making, award-winning science writer Richard Martin introduces us to thorium, a radioactive element and alternative nuclear fuel that is far safer, cleaner, and more abundant than uranium.

At the dawn of the Atomic Age, thorium and uranium seemed to be in close competition as the fuel of the future. Uranium, with its ability to undergo fission and produce explosive material for atomic weapons, won out over its more pacific sister element, relegating thorium to the dustbin of science.

Now, as we grapple with the perils of nuclear energy and rogue atomic weapons, and mankind confronts the specter of global climate change, thorium is re-emerging as the overlooked energy source as a small group of activists and outsiders is working, with the help of Silicon Valley investors, to build a thorium-power industry.

In the first book mainstream book to tackle these issues, *Superfuel* is a story of rediscovery of a long lost technology that has the power to transform the world's future, and the story of the pacifists, who were sidelined in favour of atomic weapon hawks, but who can wean us off our fossil-fuel addiction and avert the risk of nuclear meltdown for ever.

From reader reviews:

Steve Duran:

Why don't make it to become your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite e-book and reading a publication. Beside you can solve your trouble; you can add your knowledge by the guide entitled SuperFuel: Thorium, the Green Energy Source for the Future (MacSci). Try to stumble through book SuperFuel: Thorium, the Green Energy Source for the Future (MacSci) as your friend. It means that it can to get your friend when you experience alone and beside regarding course make you smarter than ever before. Yeah, it is very fortunated in your case. The book makes you far more confidence because you can know almost everything by the book. So , let me make new experience along with knowledge with this book.

Lizzie Chandler:

Have you spare time for any day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their very own spare time to take a wander, shopping, or went to the Mall. How about open as well as read a book allowed SuperFuel: Thorium, the Green Energy Source for the Future (MacSci)? Maybe it is for being best activity for you. You recognize beside you can spend your time together with your favorite's book, you can smarter than before. Do you agree with it is opinion or you have additional opinion?

Amanda Despain:

That e-book can make you to feel relax. This specific book SuperFuel: Thorium, the Green Energy Source for the Future (MacSci) was colorful and of course has pictures around. As we know that book SuperFuel: Thorium, the Green Energy Source for the Future (MacSci) has many kinds or genre. Start from kids until youngsters. For example Naruto or Private investigator Conan you can read and feel that you are the character on there. Therefore not at all of book are make you bored, any it makes you feel happy, fun and rest. Try to choose the best book for yourself and try to like reading which.

Richard Broderick:

A lot of guide has printed but it is different. You can get it by net on social media. You can choose the best book for you, science, comedian, novel, or whatever by searching from it. It is named of book SuperFuel: Thorium, the Green Energy Source for the Future (MacSci). You can contribute your knowledge by it. Without leaving the printed book, it may add your knowledge and make you happier to read. It is most critical that, you must aware about publication. It can bring you from one spot to other place.
