## 2016-2017 Basic and Clinical Science Course (BCSC), Section 04: Ophthalmic Pathology and Intraocular Tumors (Basic & Clinical Science Course (BCSC))

American Academy of Ophthalmology

2016-2017 Basic and Clinical Science Course (BCSC), Section 04: Ophthalmic Pathology and Intraocular Tumors (Basic & Clinical Science Course (BCSC)) American Academy of Ophthalmology Major revision for 2016-2017!

This year Section 4 received updates to the conjunctiva, cornea, melanocytic and angiomatous chapters. Section 4 presents materials in two parts: Part I, Ophthalmic Pathology; and Part II, Intraocular Tumors. Part I uses a hierarchy that moves from general to specific to help derive a differential diagnosis for a specific tissue. Part II is a compilation of selected clinical aspects of importance to the general ophthalmologist. Additionally, this section has been enhanced with a variety of new images and four videos. Both print and eBook users have access to the videos.

Upon completion of Section 4, readers should be able to:

- \*Describe a structured approach to understanding major ocular conditions based on a hierarchical framework of topography, disease process, general diagnosis and differential diagnosis
- \*Summarize the steps in handling ocular specimens for pathologic study, including obtaining, dissecting, processing, and staining tissues
- \*Identify those ophthalmic lesions that indicate systemic disease and are potentially life threatening

Section chair: Robert H. Rosa Jr., MD

Print: 372 pages

### **CME Information**

The American Academy of Ophthalmology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Academy of Ophthalmology designates this enduring material for a maximum of 10 AMA PRA Category 1 CreditsTM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Medical Association requires that all learners participating in activities involving enduring materials complete a formal assessment before claiming CME credit. To assess your achievement in this activity and ensure that a specified level of knowledge has been reached, a posttest for this section of the Basic and Clinical Science Course is provided. A minimum score of 80% must be obtained to pass the test and claim CME credit. Visit CME Central for more information.

### About the BCSC

The Academy's Basic and Clinical Science CourseTM (BCSC®) is ophthalmology s definitive compilation of scientific research and clinical experience. It is continually updated by a faculty of more than 80 expert ophthalmologists. Each of the 13 volumes includes fundamental clinical knowledge; numerous tables, photos and illustrations; self-assessment questions with answers; and opportunities for earning AMA PRA Category

### 1 CreditTM.

Beginning with the 2013 2014 edition, the Academy and the European Board of Ophthalmology (EBO) have partnered to make the BCSC the standard text for all European ophthalmology training programs. The EBO now recommends the BCSC as the primary educational resource for European trainees and ophthalmologists studying for the annual EBO Diploma Exam.
