It is 1899, and young Andrew Wyndham has accepted a position tutoring the unruly son of wealthy industrialist Duncan Stewart in the hopes that the work will be brief yet provide an avenue to pay for his passage to France to study art. But Seacliff is a dark and eerie mansion enshrouded in near-eternal fog, dark mystery and suspicion-perhaps a reflection of the house's master. An imposing Blackbeard of a man, brooding Duncan Stewart is both feared and admired by his business associates as well as the people he calls friends, for Stewart may have murdered his own father to gain control of his business. And his home, in which Andrew Wyndham must now reside, holds terrible secrets-secrets that could destroy everyone within its walls. For pure gothic escapism with a decidedly masculine point of view, The Master of Seacliff is an enthralling and satisfying read.
